Re: Docket # E-01345A-14-0113

DOCKETED BY

Dear Commissioners,

Now in the third week since my letter to the Commission dated April 26th [Re: Docket # E-00000C-11-0328] and still I've heard nothing. I'd like to believe it is because you are working so hard at your jobs – protecting the People of the State of Arizona. However, with all due respect, it appears the Commission is in disarray. Failing miserably to perform the functions for which they are bound by law to, stand over, regulate, and enforce.

The fraudulent lying must be addressed at once. In regards to the forced installation of so called “smart” meters under the misinformation and backward procedures that you have allowed. The time is long over due to halt this nonsensical illegal deployment. Nothing short of an aggressive investigation deep into the bogus science and systematic lying will due. **THIS IS YOUR RESPONSABILITY – IS IT NOT?**

Along with many things, the APS motion to dismiss this current fraud complaint appears to be so lame and nothing but more of the same misinformation and omissions that are the very problems in the first place. You must take this for the seriousness that be at stake here. This is no small matter and sincerely needs to see the light of day. Millions of installations and many people haven't even heard of a “smart” meter [though they might even have one on their house]. The misleading misinformation this Commission has allowed is disgracefully damaging and confusing to what the truth is. An absolute mess now in need of cleaning up and the Commission allowed this to happen. This be nothing but a sham of lying. The truth be known – NO one would have “opted in” for a “smart” meter. The Commission has allowed this deception of the People. The sooner the clean up starts the better.

There is no darker energy/action than lying to and bullying our own People. No group of terrorists or Nations could harm us more. Please... tell me what your first order of business is to bring this darkness into the light of truth?

Respectfully,

Stan Kingman
